

We are Schuchart. We build and improve office buildings and retail spaces, restaurants, schools and light industrial structures, medical facilities, financial institutions, art galleries, and much more. We work with small businesses in local neighborhoods and help corporate clients like Boeing, Microsoft, Starbucks, Amazon, and Adobe create the right spaces for their operations and their employees.

And we're something more. We're a company committed to building the best possible relationships with our customers and partners. A contractor that for over 20 years has made integrity, trust, and stewardship the foundation of our firm's culture. A team that puts all the experience and enthusiasm of our skilled staff at the service of our clients.

MISSION STATEMENT

To build all projects on a foundation of outstanding performance, service and integrity.

COMPANY HISTORY

Schuchart Corporation was founded in 1988 by George Schuchart, Jr., former Director of Wright Schuchart, Inc., a large Seattle-based industrial contractor. Mr. Schuchart's family has been involved in the construction industry for four generations, so shortly after that company was sold, he established Schuchart Corporation in Everett, Washington, where it quickly developed a loyal clientele. As more and more of the demand for its services began to come from the greater Seattle area, the company was moved there in 1989.

For the first few years, Schuchart Corporation was primarily a tenant improvement contractor offering a range of services including new office build-outs, demolition and remodel of existing spaces, and renovation of older structures to incorporate seismic upgrades and improved safety.

Today, Schuchart Corporation is a thriving and successful general contractor offering experience and expertise in many disciplines, and a wide range of problem-solving capabilities. Recent projects include high-end tenant improvement work, medical projects, office and commercial construction, apartments and industrial projects.

Because the Schuchart approach is professional and thorough, we have a history of great success in negotiated work.

A skilled team of management specialists and field superintendents—possessing an average of 20 years of experience in all types of construction specialties—is carefully chosen and assembled to meet the specific demands and requirements of every project. These talented and experienced teams are able to provide valuable insights and suggestions about engineering and construction issues for improved efficiency on projects of every size and scope.

We've worked hard to earn our reputation for completing projects on budget and on time, with complete client satisfaction. And we're equally proud of the solid business relationships we've developed with many long-standing clients who have come to expect that their projects with Schuchart Corporation will always be completed on schedule with an exceptionally high degree of finish.
