

# Architettura Design LLC

Founded in 1999, Architettura Design is the interior design partner of leading restaurateurs and specialty retailers. We understand that all good design starts with communication. We listen and understand your objectives first. Then we develop the best possible design for your unique project.

Our stylistic solutions focus on the guest experience; creating a warm, inviting, comfortable space for your customers to dine, shop or work. We've designed imaginative, attractive interiors for a diverse collection of concepts including the Space Needle, Borders Bookstores, Elliott's Oyster House, the multi-unit Palomino Restaurant & Bar, and most recently, the Collection Cafe and the retail store in the Chihuly Garden and Glass at the Seattle Center set to open Spring 2012.

Your budget and timeline are as important to us as they are to you. We employ our technical skills and years of design experience to fashion interiors with inspired colors, materials and furnishings. We help implement our designs efficiently with careful financial oversight. Our participation in the design process includes all phases of design development from pre-design concept development to the final placement of paintings and decor.
